# Ministry Announcement on OHT Acceleration

On September 27<sup>th</sup>, the Ministry of Health made an announcement on the next steps to accelerate Ontario Health Team progress and impact.

## Key takeaways:

- Starting **April 2024**, each OHT will receive up to **\$2.2 million over three years (\$750K per year)**.
- **Twelve OHTs will be supported to advance rapidly towards maturity** and be considered for designation under the *Connecting Care Act, 2019*.
- The twelve OHTs will **share lessons learned** to support continuous learning and readiness for the next phase of implementation for all OHTs, and will help **inform the processes, guidance, and templates that other teams will follow**.
- Starting in **Q3 23/24**, the ministry and Ontario Health plan to **release guidance, resources, and supports for OHTs on key elements of *The Path Forward***, including primary care networks and governance (including on the OHT not-for-profit, back-office support through operational support providers).
- **The ministry is developing an ‘OHT Maturity Framework’** that will help OHTs in their journey from the current state to a mature state. OHTs will have the opportunity to inform the framework through various channels.

# Approach to OHT Assessment

*A current state of OHTs' progress against the key functional areas described in The Path Forward to identify teams that are well positioned to rapidly advance toward maturity and potential designation.*

## **Assessment Domains**

**Governance**

**Clinical Service Transformation/ Population Health Management**

**Leadership**

**Readiness for Home Care Transition**

**Primary Care Engagement & Leadership**

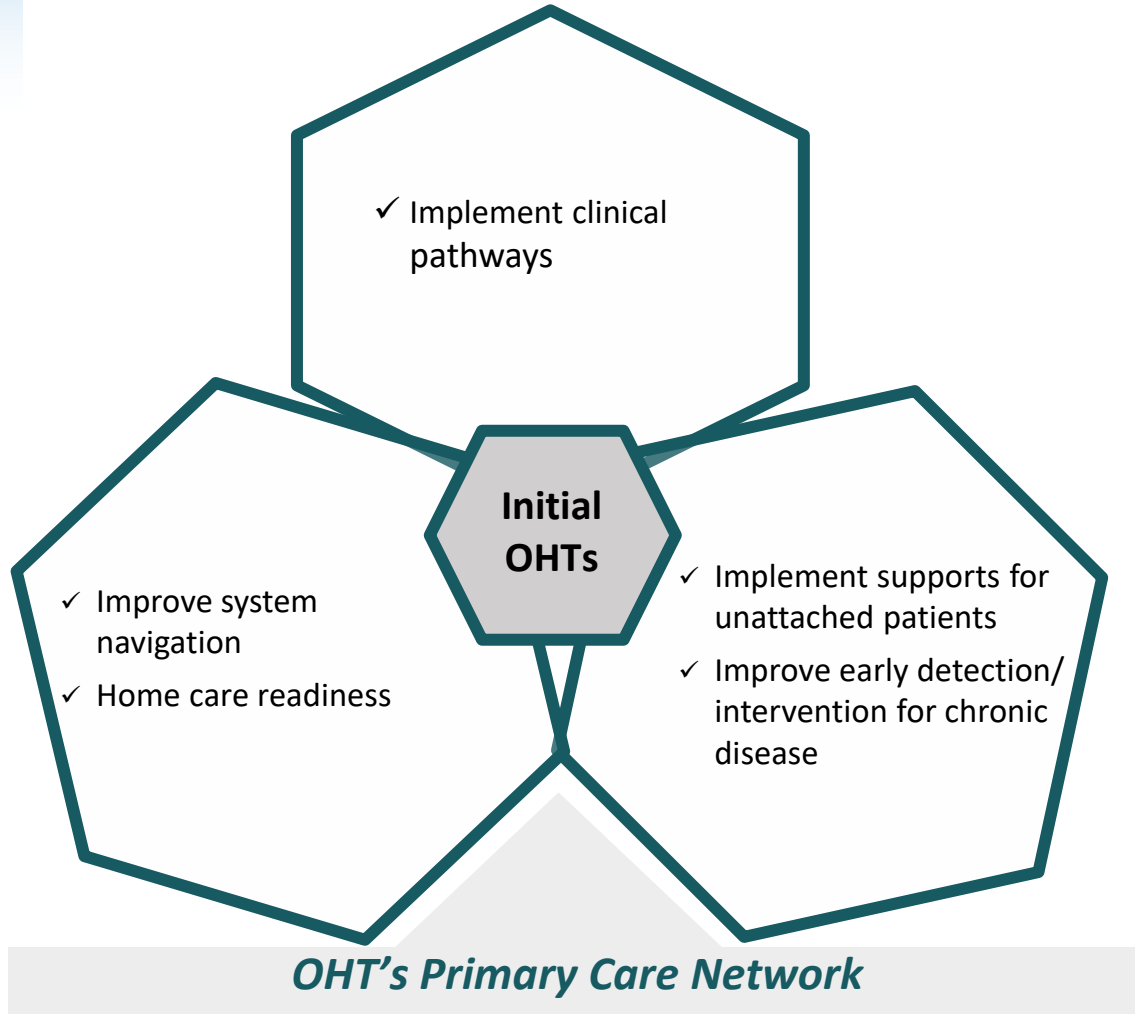

**Delivering an ICP and/or Home Care LP**

**Strong Back Office**

*To complete the assessment, OH provincial and regional teams leveraged various inputs, including an analysis of OHT TPA reporting and an all-OHT survey which reported on categories of work not addressed by TPA deliverables. Regional representation and local context were also considered. The Ministry approved the initial group of OHTs.*

# Improving Patient Outcomes through Initial OHTs

*Initial OHTs will be asked to advance provincial clinical priorities and demonstrate improvements to patient experience and outcomes*

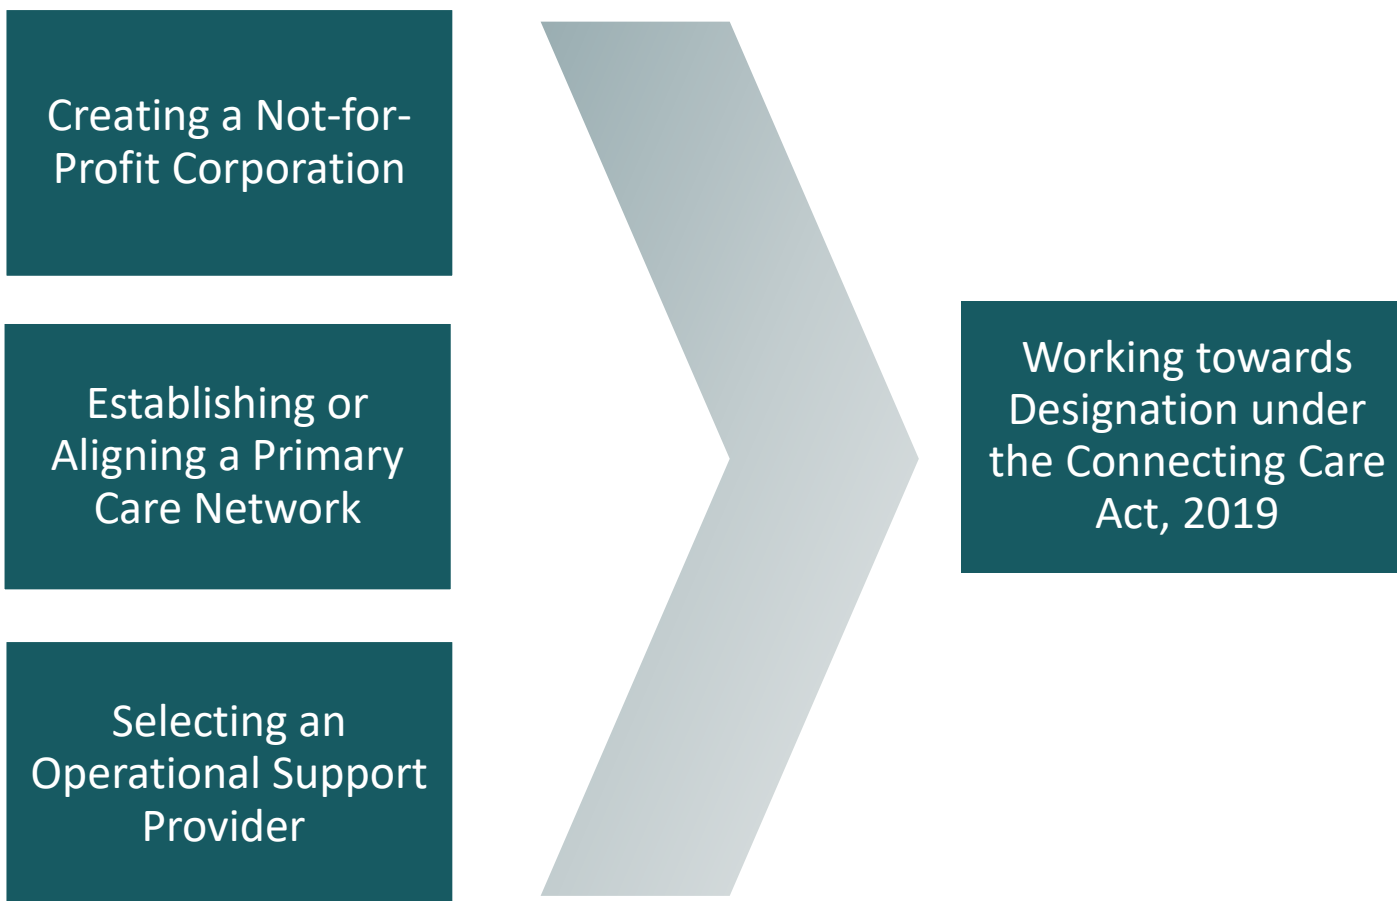

## Improved Patient Outcomes

- ↑ Increased early detection of chronic disease
- ↑ Improved chronic disease outcomes
- ↓ Reduced acute care utilization
- ↑ Increased access to primary care services for unattached patients
- ↑ Improved system navigation support to find and access care
- ↑ Increased access to integrated team-based models of care

# Building OHTs to Last

*The Initial OHTs will also be asked to advance key structural priorities that will ensure the teams have strong foundations in place to achieve patient and system impacts*

**Thank you**
