

Canadian spotlight 16.1: Key additions from the first half of April 2022

In the first half of April, contributing Canadian evidence-synthesis teams have shared with us seven newly completed evidence syntheses which are listed in the table below. All of the syntheses provide insight focused on public-health measures (n=7).

Taxonomy section	Title	Type of product	Date of last search (and publication)	Evidence synthesis team
• Public-health measures	What is the effectiveness of available COVID-19 vaccines for variants of concern in adults over time frames up to 120 days?	Update to a living evidence synthesis	2022-04-13 (published 2022-04-13)	Health Information Research Unit, McMaster University
• Public-health measures	What is the effectiveness of available COVID-19 vaccines for children and adolescents, including variants of concern?	Update to a living evidence synthesis	2022-04-11 (published 2022-04-13)	Faculty of Medicine, University of Antioquia & Health Information Research Unit, McMaster University
• Public-health measures	What is the impact of implementing (or removing) COVID-19 vaccine mandates on trust in institutions and in science, on psychological reactance, and/or on intention to get future doses/vaccines?	Rapid synthesis	2022-03-25 (published 2022-04-01)	Ottawa Hospital Research Institute
• Public-health measures	Impact of vaccination on post-acute COVID-19 syndrome (PACS) – What we know so far	Evidence synthesis	2022-03-10 (published 2022-04-06)	Public Health Ontario
• Public-health measures	What is the incidence and duration of long COVID cases?	Update to a living rapid review	2022-03-03 (published 2022-03-31)	Saskatchewan Health Authority; University of Saskatchewan; Saskatchewan Health

				Authority Council
<ul style="list-style-type: none"> Public-health measures 	The effects of vaccination in immunocompromised pediatric people	Update to a rapid synthesis	2021-12-21 (published 2022-04-04)	Farncombe Family Digestive Health Research Institute, McMaster University
<ul style="list-style-type: none"> Public-health measures 	Disaster recovery frameworks: Common themes to inform COVID-19 recovery efforts	Evidence brief	2021-06-25 (published 2022-03-28)	Public Health Ontario
