

Canadian spotlight 18.2: Key additions from the second half of June 2022

In the second half of June, contributing Canadian evidence-synthesis teams have shared with us five newly completed evidence syntheses which are listed in the table below. From the COVID-END taxonomy, all of the syntheses provided insight focused on public-health measures (n=5).

Taxonomy section	Title	Type of product	Date of last search (and publication)	Evidence synthesis team
<ul style="list-style-type: none"> Public-health measures 	What is the effectiveness of available COVID-19 vaccines for adults, including for variants of concern and over time frames up to 120 days?	Update to a living evidence synthesis	2022-06-22 (published 2022-06-22)	Health Information Research Unit, McMaster University
<ul style="list-style-type: none"> Public-health measures 	What is the long-term effectiveness of available COVID-19 vaccines for adults, including for variants of concern and over time frames beyond 112 days in those with a primary series and beyond 84 days in those with a primary series and an additional dose?	Update to a living evidence synthesis	2022-06-22 (published 2022-06-22)	Montreal Behavioural Medicine Centre, Concordia University
<ul style="list-style-type: none"> Public-health measures 	What is the effectiveness of available COVID-19 vaccines for children and adolescents, including variants of concern?	Update to a living evidence synthesis	2022-06-20 (published 2022-06-22)	Faculty of Medicine, University of Antioquia & Health Information Research Unit, McMaster University
<ul style="list-style-type: none"> Public-health measures 	What is known about the response of the Public Health Network and the Special Advisory Committee in Canada to the COVID-19 pandemic?	Rapid review	2022-04-22 (published 2022-05-31)	National Collaborating Centre for Methods and Tools

<ul style="list-style-type: none">Public-health measures	<u>What are long COVID's demands on the healthcare system, and its severity of the illness?</u>	Update to a living rapid review	2022-03-11 (published 2022-06-20)	Saskatchewan Health Authority; University of Saskatchewan
