

## Canadian spotlight 21.1: Key additions from the first half of September 2022

In the first half of September, contributing Canadian evidence-synthesis teams have shared with us five newly completed evidence syntheses which are listed in the table below. From the COVID-END inventory, all the syntheses provided insight focused on public-health measures (n=5).

Taxonomy section	Title	Type of product	Date of last search (and publication)	Evidence synthesis team
<ul style="list-style-type: none"> <li>Public-health measures</li> </ul>	<a href="#">What is the effectiveness of available COVID-19 vaccines for adults, including for variants of concern and over time frames up to 120 days?</a>	Update to a living evidence synthesis	2022-09-14 (published 2022-09-15)	Health Information Research Unit, McMaster University
<ul style="list-style-type: none"> <li>Public-health measures</li> </ul>	<a href="#">What is the long-term effectiveness of available COVID-19 vaccines for adults, including for variants of concern and over time frames beyond 112 days in those with a primary series and beyond 84 days in those with a primary series and an additional dose?</a>	Update to a living evidence synthesis	2022-09-14 (published 2022-09-15)	The Montreal Behavioural Medicine Centre, Concordia University
<ul style="list-style-type: none"> <li>Public-health measures</li> </ul>	<a href="#">What is the effectiveness of available COVID-19 vaccines for children and adolescents, including variants of concern?</a>	Update to a living evidence synthesis	2022-09-13 (published 2022-09-15)	Faculty of Medicine, University of Antioquia & Health Information Research Unit, McMaster University
<ul style="list-style-type: none"> <li>Public-health measures</li> </ul>	<a href="#">COVID-19 wastewater surveillance update</a>	Rapid review	2022-02-14 (published 2022-09-09)	Public Health Ontario
<ul style="list-style-type: none"> <li>Public-health measures</li> </ul>	<a href="#">Heating, ventilation and air conditioning (HVAC) systems in buildings and COVID-19</a>	Update to a rapid review	2022-02-07 (published 2022-09-08)	Public Health Ontario
