

## Canadian spotlight 21.2: Key additions from the second half of September 2022

In the second half of September, contributing Canadian evidence-synthesis teams have shared with us one newly completed evidence synthesis which is listed in the table below. From the COVID-END inventory, the synthesis provided insight focused on public-health measures and clinical management (n=1).

Taxonomy section	Title	Type of product	Date of last search (and publication)	Evidence synthesis team
<ul style="list-style-type: none"> <li>Public-health measures</li> <li>Clinical management</li> </ul>	<a href="#">Incidence, natural history, specific populations and hypothesized mechanisms of myocarditis and pericarditis following mRNA COVID-19 vaccination: Living evidence synthesis</a>	Update to a living evidence synthesis	2022-08011 (published 2022-09-26)	SPOR Evidence Alliance
