Digitizing Working Group
Agenda for the Microsoft Teams call on 14 August 2020

1. **FOLLOW-UP ON ACTION ITEMS**
 	
    a. Additions?
    b. Review previous meeting notes and actions from July 31 (see attachment 2)
	5 min

2. **'ENHANCE MY RIS FILE' PROJECT** *a. Updates on user case document (see attachment 3)*	20 min

3. **DIGITAL SOLUTIONS AND OPPORTUNITIES IN EVIDENCE SYNTHESIS PROCESS**
 	
    a. Discuss key industry ideas (e.g. Kayak, Trivago) and existing digital tools (e.g. Distiller, RevMan) that provide inspiration for types of ideals that can be pursued as a Working Group
    b. Other updates from participants about key projects which may overlap with COVID-END priorities
        c. COVID-19 Interoperability Alliance (see email below)
	30 min

4. **ANY OTHER BUSINESS** *a. Switching to biweekly meeting schedule*	5 min

Wanted to remind folks that the COVID-19 Interoperability Alliance (https://covid19ia.org) has created more than 600 value sets related to COVID-19 and has made them publicly available. They address conditions, medications, labs, procedures, and other domains and are bound to standard terminologies as recommended in USCDI. They can be downloaded from the Alliance website (https://covid19ia.org/downloads/) free of charge and without an account. They can also be retrieved from VSAC (https://vsac.nlm.nih.gov) which requires registration for a free UMLS account—the easiest way to find them is to search for "Clinical Architecture" in the Steward column. I am also happy to take requests from the ACTS community on behalf of the COVID-19 Interoperability Alliance, so feel free to contact me directly.
