<td>294</td>
</tr>
</tbody>
</table>
Comparing subscription activities

- 13% of subscriptions to the COVID-END listserv is directly linked to the organizational outreach carried out around June 2020.

- Other subscriptions to the COVID-END listserv account for 87%.
Representation from initial listserv promotion

- NGO: 67%
- Acad./Research Institutions: 18%
- Govt. Agencies: 13%
- Health Institution: 2%

n=39
OBSERVATIONS

- Certain key contacts (4) in the initial drive had multiple organizational affiliations (10) and were therefore counted just once.

- There is participation by some individuals in the COVID-END initiative and working groups, who are not subscribed to the listserv community.

- A couple of these individuals are also key organizational contacts.
Total organizational representation on COVID-END listserv
